START AND END DATE:

Instruction : Create a Food Log using the provided template and examples as your guide. In this activity, you will carefully *record everything you eat, drink, or take* throughout the day, including *breakfast, morning snack, lunch, PM snack, dinner, and midnight snack (if applicable)*. For each entry, make sure to include the time of intake, the specific food and beverages consumed, the amount or serving size, and the place where you ate. It is important that your entries are complete, accurate, and organized. In addition, you must provide proper documentation as proof by taking clear photos of your food and drinks during each meal or snack time. These photos should be taken at the time of consumption and must clearly show what you are eating or drinking. Be honest in recording your daily intake, as this activity aims to reflect your actual eating habits.
